Why take this seminar?

- Learn more about plant biochemistry and how it applies to disease treatment, drug discovery, and health care
- Take initiative in learning through reading primary literature, giving presentations, and attending guest lectures/field trips
- Earn 3 upper-level BIOL credits

Prereq: BIOL200 and one of BIOL201/BIOC202/BIOC203. Contact Tommy Kuo (c.kuo@alumni.ubc.ca) if you have questions!
